Softies™

SPARK PLUGS

Extra-soft, low-pressure foam for extra comfort.

Tapered end is shaped for easy insertion and removal.

Shaped to fit even very small ear canals.

Non-irritating, smooth surface.

Non-allergenic foam.

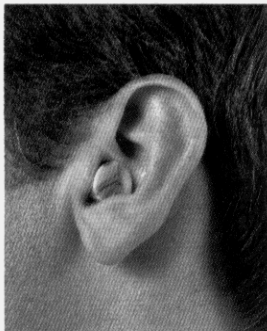

High rating of NRR 31.

Softies are colored bright gold for easy compliance checks.

SparkPlugs are fun-colored to increase compliance.

Softies and SparkPlugs are available with securely and cleanly attached cord.

Hygienically packaged.

PUT A COUPLE SOFTIES TO WORK.

Their qualifications are excellent. With extra-soft, extra-light foam that seals the ear canal without pressure.

And naturally, they're in perfect shape, tapered for a snug fit while gently conforming to the ear canal.

They have a high NRR 31 rating. Plus, for easy compliance checks, they're colored bright gold.

And have we made it easy to keep track of your Softies? Naturally. They're available on a cord.

SPARK UP YOUR HEARING PROTECTION.

The fun colors are sure to put some spark into your hearing protection program. That's why we call them SparkPlugs.

Every package reveals two different-colored SparkPlugs.

SparkPlugs do everything Softies do. Fit snugly, yet gently seal the ear canal. They're available on a cord.

And while they look like fun, they provide serious protection with a high NRR 31.

WARNING

Use this laboratory-derived attenuation data for comparison purposes only. The amount of protection afforded in field use often is significantly lower depending on how the protectors are fitted and worn. Failure to follow all instructions could result in hearing loss or injury. Failure to obtain a proper fit will reduce effectiveness of hearing protectors and could result in hearing loss or injury. Softies/SparkPlugs should be used once only, and are not designed for reuse. For additional information refer to your supervisor and/or see packaging or phone 800/421-0668.

LIMITED WARRANTY

IMPORTANT NOTICE TO PURCHASER

This limited warranty is made in lieu of the warranties of merchantability, fitness for particular purposes and all other warranties, express or implied. There are no other warranties which extend beyond the description on the face hereof. The physical standards and specifications of Moldex will be met by products sold. **Exclusive Remedies:** damages for the breach of this limited warranty are limited to the replacement of such quantity of Moldex products proved to be defectively manufactured. Except as provided above, Moldex shall not be liable or responsible for any loss, damage, or liability, direct indirect, incidental, special, or consequential, arising out of sale, use, or misuse, or the inability to use products by the user.

MAX[®]

The Best Disposable Hearing Protector - Bar None! **Superior Comfort and Attenuation**

MAX offers user comfort not found in other preshaped foam earplugs, as well as the highest NRR rating available.

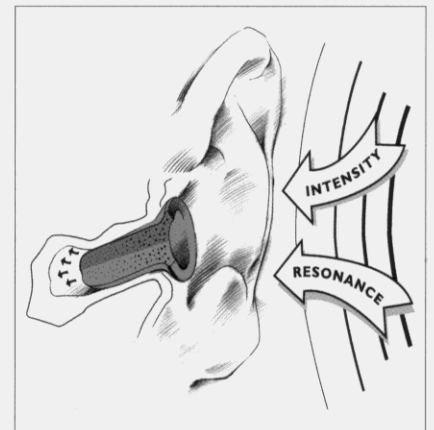

SUPERIOR COMFORT: The MAX earplug features a smooth skin for maximum user comfort. Tapered and preshaped, MAX is designed to follow the contour of the ear canal, provide for easy insertion, and a comfortable, natural seal. The flared end promotes optimum insertion depth and easy grasp for removal.

MAXIMUM ATTENUATION: MAX foam earplugs are designed with a smooth outer skin graduating to larger cellular cavities in the center of the earplug. The graduated sizing of the cellular cavities effectively fractures the sound waves and reduces the sound intensity. This unique foaming material combined with its' unique shape allows MAX to achieve a NRR 33 rating - the highest rated earplug available!

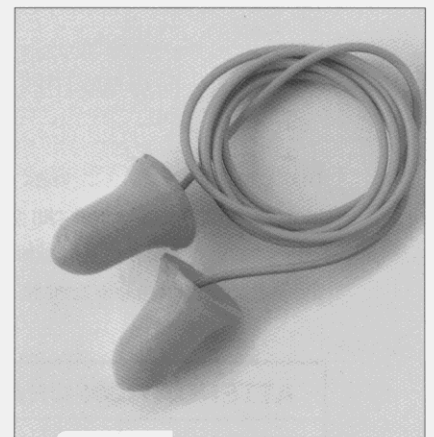

SUPERIOR HYGIENE: Work environments are often dirty, and workers hands pick up contaminants that can easily be transferred to the earplug surface. The smooth, soil-resistant skin helps prevent foreign material from impregnating the surface while rolling prior to insertion.

Premium Foam Earplugs

MAX Lite[®]

LOW PRESSURE FOAM

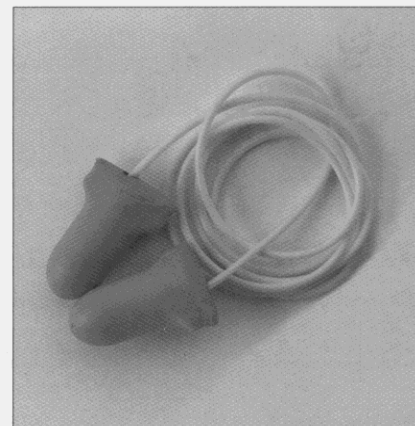

Ideal for long term users and those with smaller ear canals

MAX LITE offers long term user comfort not found in other pre-shaped foam earplugs. The non-irritating, non-allergenic self-adjusting foam recovers to fit any ear canal. MAX-LITE is ideal for that portion of the population with smaller ear canals.

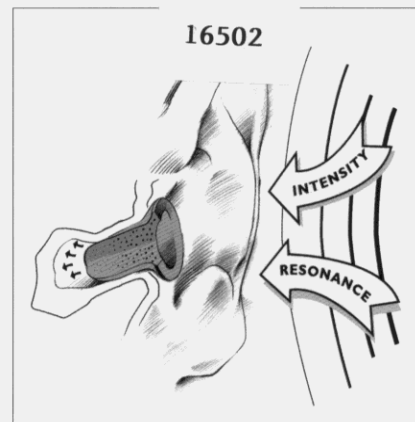

SUPERIOR COMFORT: The MAX LITE low pressure foam earplug virtually eliminates pressure on the ear canal, making MAX-LITE an extremely comfortable earplug for long term usage. Tapered and pre-shaped, MAX LITE is designed to follow the contour of the ear canal, provide for easy insertion, and a comfortable, natural seal. The winged end promotes optimum insertion depth, and easy grasp for removal.

HIGH ATTENUATION: MAX-LITE low pressure foam earplugs are designed with a smooth outer skin graduating to larger cellular cavities in the center of the earplug. The graduated sizing of the cellular cavities effectively fractures the sound waves and reduces the sound intensity. This unique foaming material combined with its' unique shape allows MAX-LITE to achieve a very respectable NRR 30 rating.

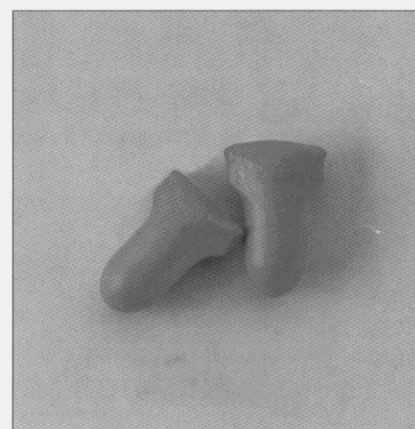

SUPERIOR HYGIENE: Work environments are often dirty, and workers hands pick up contaminants that can easily be transferred to the earplug surface. MAX-LITE's smooth, soil-resistant skin helps prevent foreign material from impregnating the surface while rolling prior to insertion.

MULTI-MAX

Multi-sized means economy, flexibility & comfort!

MULTIMAX (NRR 31) is a uniquely designed two-sizes-in-one earplug—you have the choice of which tip fits and works best and is most comfortable for you. It combines high ratings with convenient size flexibility. Two-sizes-in-one design makes inventory control easy.

MULTIMAX has our trademark smooth, solvent-resistant skin and attenuation effectiveness. High-visibility coral and yellow colors, packed in poly or paper bags, 200 uncorred pair per box.

MAX-LITE

Ideal for long-term users and those with smaller ear canals

MAX-LITE (NRR 30) low pressure foam earplugs offer long-term user comfort not found in other pre-shaped foam earplugs. The non-irritating, non-allergenic self-adjusting foam recovers to fit virtually any ear canal.

MAX-LITE is also ideal for that portion of the population with smaller ear canals. Green color, packed in poly or paper bags.

LASER-TRAK

The only disposable detectable earplug on the market today!

All the economy, safety, comfort, attenuation... and it's detectable, too. All these great features come together in the new LASER-TRAK (NRR 32)! The only earplug that is both disposable and detectable. Comfortable styling that also provides high attenuation in tandem with detectability. Bright orange and blue coloring for extra visibility in food processing environments. Nonferrous metal is highly detectable by metal detection devices. Corded for extra safety and convenience.
